

**Programme priorities of the Pirate
party for the Žabovřesky municipal
assembly elections**

2018

- We want municipal district opened for citizens.
- We want voting in the municipal district assembly and council by names (so you can hold individual politicians and parties accountable). We want interactive online stream from the assembly meetings with an online chat which could be used to contact assembly members and elected officials by people who cannot attend personally. We want subsequent upload of the record of the assembly meetings on the municipal district website.
- We will make maximum of the informations public so the citizens does not have to ask for them. We will make sure that the essential informations are also available in English. We will make public all our contacts with lobbyists.
- We will make public tenders transparent. We want open selection procedures and effective asset management of the municipal district.
- We want maximum public participation of the citizens on the governing.
- We want e-government.
- We will not allow developers, politicians and their friends to make spatial plan their personal tear-off calendar.
- We want more public greenery and less concrete.
- We want parking for Žabovřesky citizens free in the whole Brno. Only people from outside of Brno should pay for parking.
- We want to introduce charging stations for electric cars on the streets.
- We want new bicycle paths and bike stands on the streets.
- We want to reduce block street cleaning (when you have to remove your car from the street temporarily).
- We want modern teaching methods at schools, healthy nutrition for school kids and widely available and affordable after school activities for kids.
- We want affordable housing for young people.

- We want to help to develop full-scale offer of all necessary civic amenities and services for citizens in our neighbourhood.
- We will offer publicly owned commercial spaces for start-ups.
- We want eatery and community center for seniors and community centre for families.
